

CAPOBIANCO
ORGANIC FARM

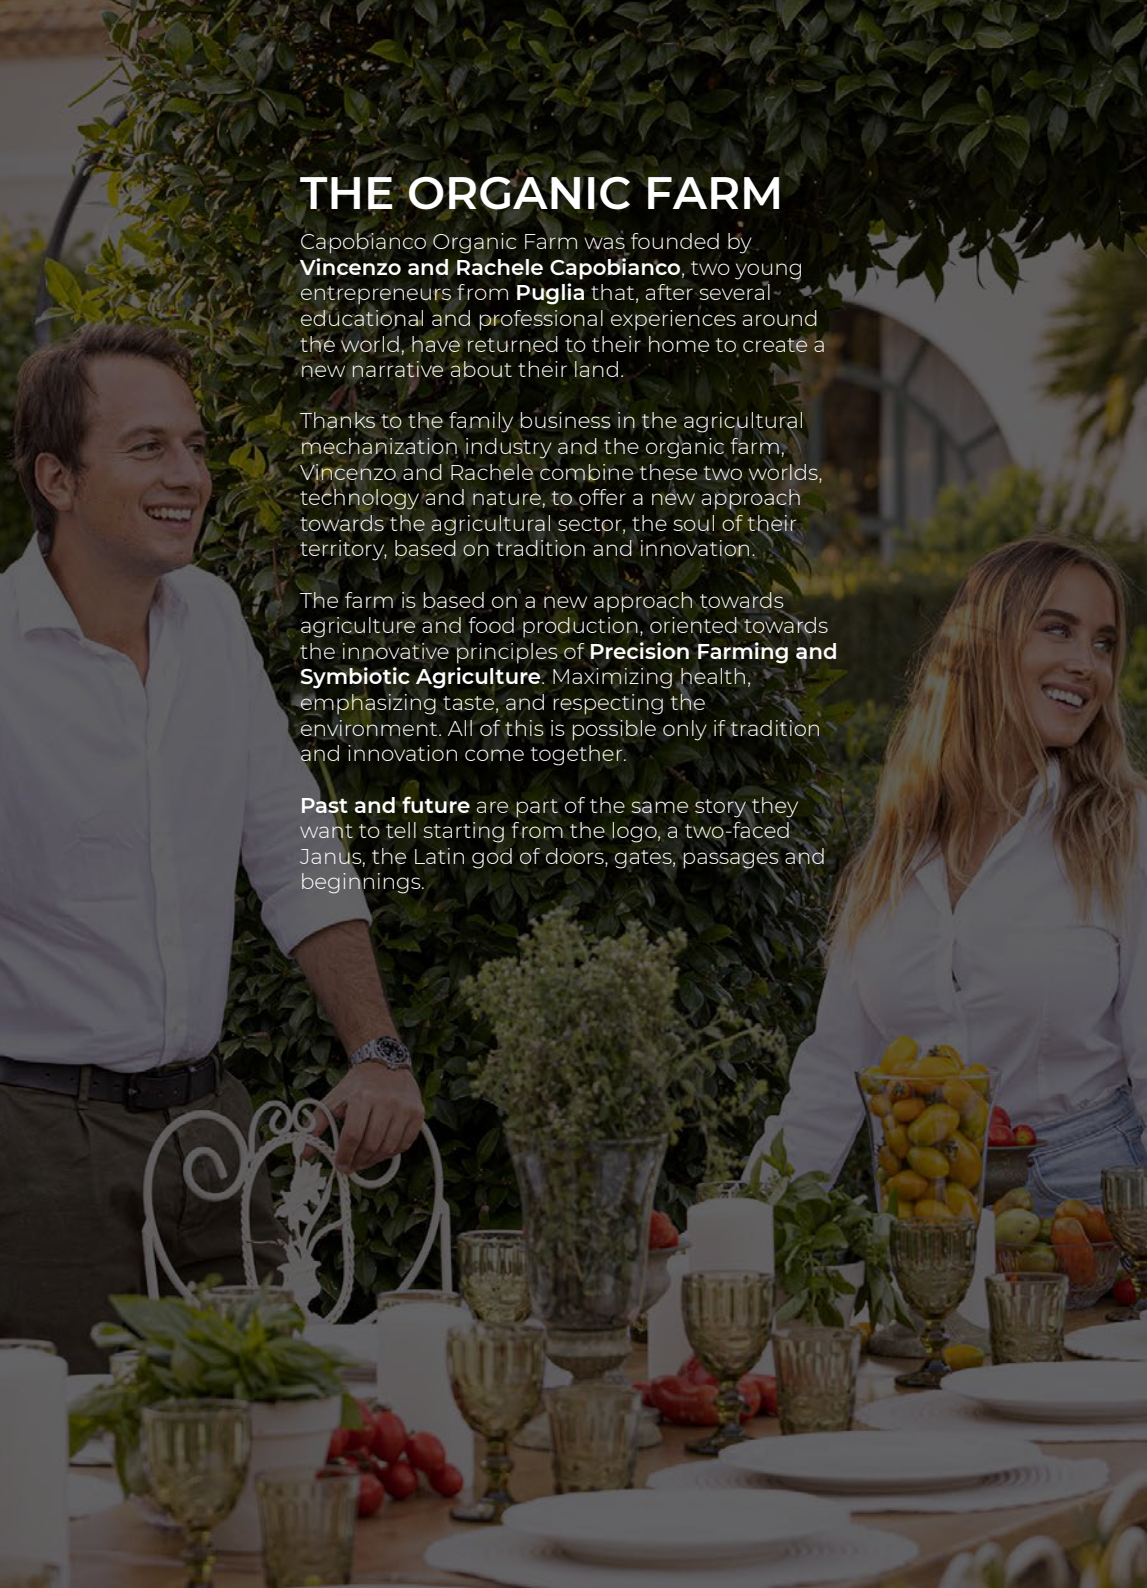

THE ORGANIC FARM

Capobianco Organic Farm was founded by **Vincenzo and Rachele Capobianco**, two young entrepreneurs from **Puglia** that, after several educational and professional experiences around the world, have returned to their home to create a new narrative about their land.

Thanks to the family business in the agricultural mechanization industry and the organic farm, Vincenzo and Rachele combine these two worlds, technology and nature, to offer a new approach towards the agricultural sector, the soul of their territory, based on tradition and innovation.

The farm is based on a new approach towards agriculture and food production, oriented towards the innovative principles of **Precision Farming and Symbiotic Agriculture**. Maximizing health, emphasizing taste, and respecting the environment. All of this is possible only if tradition and innovation come together.

Past and future are part of the same story they want to tell starting from the logo, a two-faced Janus, the Latin god of doors, gates, passages and beginnings.

PRESTIGE COLLECTION

An exclusive collection composed of **refined silk-screened vases**, designed by the Florentine artist Caterina De Renzis Sonnino. The theme of the collection is to **put the raw material at the center**, through the **total transparency** of the vase and the tomato designs that highlight the peculiarities of the selected varieties. Each product is monocultivar and each vase bears the design of the respective tomato used, characterized by **pop and bright colors** to reflect the innovative and young component of the company.

PLUM

CHERRY
TOMATO
VOLARE
PUREE

Organic cherry tomatoes **harvested by hand** in full ripeness, blanched for a few minutes in boiling water, pureed and packaged in glass jars. Called "Ciliegiione" because they are larger than the usual cherry tomatoes, they have a thicker skin thanks to which a dense and fragrant puree is obtained, sweeter than our Organic Plum Tomato Puree. Without dyes or preservatives.

PEELED
TOMATO

Organic peeled tomatoes harvested when fully ripe, blanched for a few seconds in boiling water, **hand-peeled** whole and packaged in glass jars with fresh basil leaves. Called "Pelatini" because they are smaller than the classic long tomatoes that can weigh up to 100 g for tomato. Our Pelatini, weighing about 40-50 g, are easier to use and sweeter. Without dyes or preservatives.

THE TRADITIONALS COLLECTION

The Traditionals Collection offers the **outstanding quality** of Capobianco Farm **organic tomatoes** in a simple and comfortable jar for everyday use. The tomatoes are all grown in the owned farm located in **Puglia** and according to the principles of **Symbiotic Agriculture**. Mycorrhizae, microalgae and fungi are used to reintegrate in the soil the organic matter lost over the decades and to improve its biodiversity. These organisms enter into symbiosis with the plant system and improve its defenses and its fruits, both from a nutraceutical and qualitative point of view. The tomatoes are then **harvested and processed by hand** within 24 hours. The result is a tomato of an **unparalleled freshness**.
